GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is safety listed for wet locations.

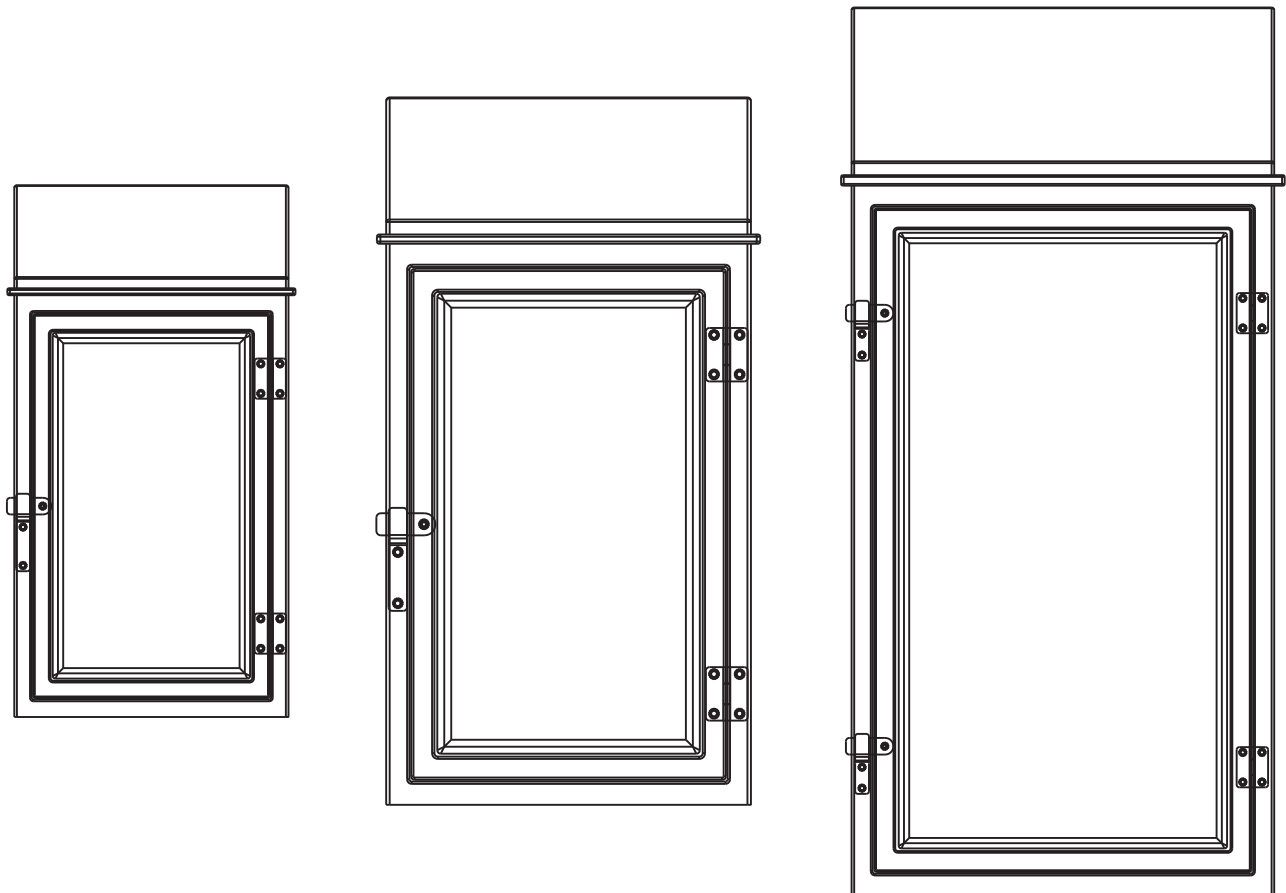

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

This instruction shows a typical installation.

CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

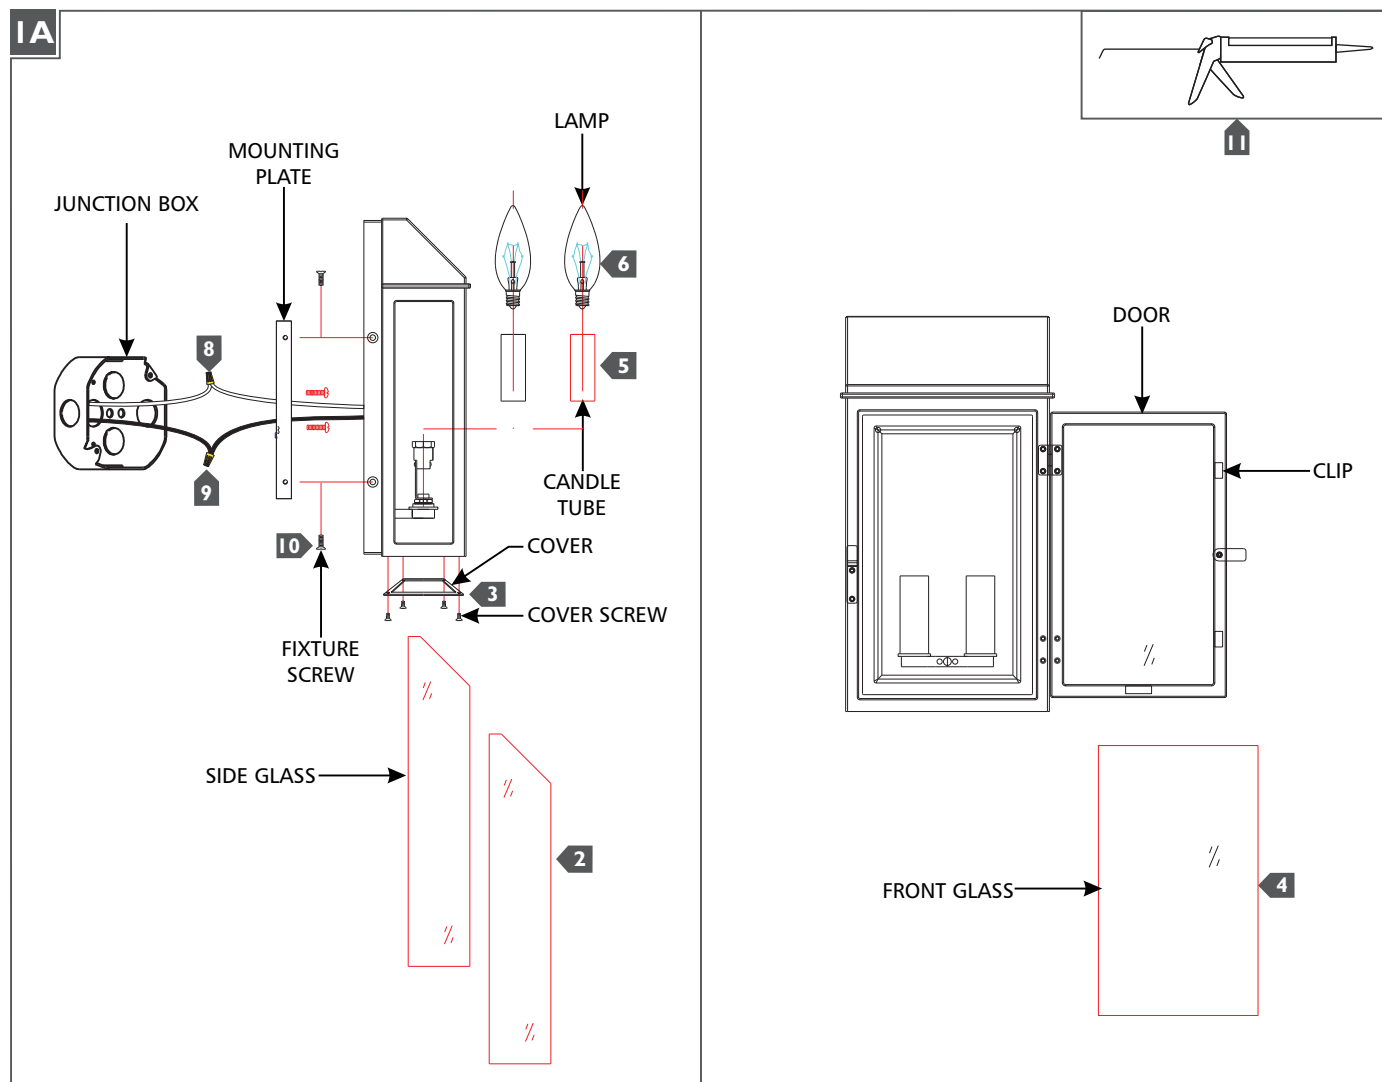

Use minimum 90°C supply conductors.

SAVE THESE INSTRUCTIONS!

Install the Fixture

IA

- 1 Secure the mounting plate to the junction box.
- 2 Install the side glass by carefully inserting them into the fixture frame.
- 3 Install the cover to the bottom of the fixture and secure in place using the cover screws.
- 4 Install the front glass by carefully inserting it into the door frame.
- 5 Install the candle tubes by sliding them over the sockets.
- 6 Screw the lamps into the sockets. Refer to the label on the lamp socket for Max Wattage Information.
- 7 Connect the fixture ground wire to a suitable ground in accordance to local electrical codes.
- 8 Connect the white fixture wire to the neutral power line wire with a wire nut.
- 9 Connect the black fixture wire to the hot power line wire with a wire nut.
- 10 Properly place all wires and wire nut connections into the junction box/fixture base, mount the fixture onto the mounting plate, and secure it in place using the fixture screws.
- 11 **For Wet Locations:** Caulk around the fixture base with waterproof construction sealant.
