SEABORNE | 88723

Seaborne is engineered to thrive where others can't. This marine-grade fan is crafted entirely from non-corrosive materials, including an ABS body, blades, and canopy, to resist salt air, moisture, and harsh climates. A fully integrated wet-location light kit adds functional illumination without sacrificing durability. Clean, modern lines make Seaborne the ideal solution for coastal patios, covered decks, and open-air living spaces where endurance meets elevated design.
